

Dovre 250

Cast iron has many advantages – durability, better heat retention and longevity, as well as the ability to be crafted into a huge variety of shapes and textures, giving aesthetic beauty and immediate appeal whether your interior style is traditional or contemporary.

Whatever your choice - wood, multi-fuel, gas or electric – your Dovre stove or fireplace will be beautifully reliable and built to the uncompromising standards you would expect from our Scandinavian heritage.

The Dovre 250 multi-fuel is designed to suit a huge range of applications from a cottage kitchen to a modern town-house living room, especially as it is approved for smoke control areas. It has a large glass door panel and ornately cast side panels both adding to the visual appeal.

Manufactured from only premium grade cast iron, the 250 is at home whether burning wood (logs up to 30cm long may be used) or a variety of solid fuels, and is equipped with a sophisticated air wash system to keep the door glass cleaner. Matt black wood burning and wood burning/smokeless fuel versions with clean burn for improved heating efficiency are also available. Shorter legs are an option on the 250CBW model.

- W x H x D: 455 x 635 x 405
- Nominal Capacity: 6kW (200m³)
- Maximum Capacity: 8kW (270m³)
- Outlet Ø: 125mm
- Weight: 89kg
- Fuel: Multi-Fuel
- All cast iron construction
- Air was system
- High efficiency up to 81.7%
