

## Franco Belge Monaco

One of our latest designs, the Monaco is justifiably popular and hailed as the new 'classic' due to its contemporary twist on the traditional Franco Belge period style. Now DEFRA\* exempt, the Monaco is suitable for burning wood in smoke controlled zones.

Equipped with a large expanse of glass which shows off the fire to full effect whilst a powerful air wash system ensures that the glass is kept as clear as possible.

The Monaco is perfect for medium to large sized rooms, with a heat output of 6 kW this stove will keep a house warm and cosy all winter. Available in matt black stove paint and a range of stunning enamel finishes to suit your home.

- W x H x D: 566 x 599 x 433
